The expense will be considered for HRA reimbursement if you attach a copy of the Explanation of Benefits (EOB) from your insurance companies documentation.

Documentation other than an insurance EOB will be considered for flex reimbursement only, if applicable. If the required documentation is not attached, your reimbursement will be delayed.

I certify that the claimed expenses were incurred to diagnose, cure, treat, mitigate, and/or prevent a disease and cover only myself, my qualified dependents, and/or spouse. These expenses have not previously been reimbursed under any plan and I will not seek reimbursement under any other health plan. I understand that items purchased merely to promote general health are not reimbursable. I further understand that expenses reimbursed may not be claimed on my individual tax return at the end of the year.
